We will not disclose any personal data provided by you to third parties or other government authorities except where such disclosure is: (i) necessary for the purpose for which you have provided the information; (ii) necessary to fulfill our obligations to you; (iii) required by applicable laws, court orders, or government regulations (for example to prevent or detect crime); or (iv) you give us permission to do so. Please refer to the Data Protection Law, DIFC Law No. 2007 for more information relating to data protection.

Section 6 Feedback / Observations

Drill Feedback:

Drill Feedback:

***Horizontal evacuation** means the person to evacuate until reached the inside part of the evacuation staircase and stay there until the alarm is silenced so she/he can go back to office. Horizontal evacuation is for those with special needs only.

****Ad hoc drill** is designed for those who are required to stay in office to handle critical operations and not participate in the main drill (their number should be limited). When the main drill is completed and the employees are back to office the fire warden should clearly explain and show the critical operation employees how to evacuate the building by taking them through the evacuation staircase until reaching the assembly point.
